Darnell Consulting Inc. The Leadership Journey

We are very excited to give you the results of the Evaluation that was developed for the Leadership Program. For a full description of the evaluation visit our blog at darnellconsulting.org. The evaluation was completed by an independent Evaluator to: *ensure the needs of Program participants have been met, and to ensure that DCI can serve their client's needs even more effectively in the future.*

- All respondents had participated in the journey for approximately 2-4 months and thirty minute telephone interviews were completed

Findings From the Leadership Journey Evaluation

- *The Journey is customized based on individual and organizational desires and needs*
- *The Journey benefits participants and others they interact with, both at work and in other areas of their lives*
- *Regular meetings with the Coach gives participants an opportunity to review progress and success as well as a opportunity to develop strategies and solutions for more challenging situations*

Quotes from our Leaders in Learning:

"It's a Journey for the entire leadership team"

"Provided me with more confidence in my skills and abilities. It has ignited me!"
